

BURNT

IMPROVING THE ENVIRONMENT THROUGH
CITIZEN INVOLVEMENT WITH GOVERNMENT,
BUSINESS, AND ACADEMIA

Summer Intern Opportunities–Year 2009

BURNT will have a summer intern program which we hope helps us tie our multiple interests closer together and offers students (and why not senior citizens) important opportunities to learn about the multiple chemicals threats facing our society.

BURNT is expert on many aspects of solid waste, landfills, recycling, and pesticides. However, we have to learn the positive solutions to these problems including sewer sludge,, and long range threats to our reproductive ability to create healthy babies due to low level multiple chemicals in the environment and humans. We offer you an opportunity to learn with us under our tutelage and direction.

Please see attached announcement. Please respond to

burnt.tn@gmail.com Oor 615-327-8515

We ask you to join us in developing positive solutions for problems such as shipping of hundreds of thousands of tons of human and business waste [sewer sludge] out of state for land application
